

Aruba

Product Description

Aruba is one of our most stunningly natural artificial grasses. It has a very soft yarn for extra comfort, making it barefoot-friendly. It is extremely dense and very resilient, giving you peace of mind, knowing that you have bought a quality product. Its vibrancy is perfect for any space and will give you that fresh and clean finish. If you're looking for high-quality grass that will stand the test of time, look no further. It may be lavishly soft, but that doesn't mean it lacks in wear. With a five-star wear rating, this grass shouldn't be underestimated, it will keep up with your ever-changing lifestyle. Take a look at our customer photos below to see how spectacular this grass truly looks when fitted.

Range Details	Properties	Technical Data	Technical Specification
Construction	PE & PP	Machine Gauge	3/8inch
Primary Backing	PP& PE	Number of Tufts	16800/m2
Secondary Backing	Latex	Yarn Shape	I Shape
Pile Height	38mm	Stitches per 10 cm	24.5 ±10%
Total Height	40mm	Fire Classification	
Pile Weight	2930 g/m2	UV Resistance	3000h tested
Total Weight	3400 g/m2	Colour Fastness	
Roll Width	4 metres & 5 metres	VOC Emissions Rating	Low Emissions

Installation Guidance	Properties
Recommended Adhesive	Artificial Grass Flex Adhesive
Recommended Membrane	Weed Suppressant Membrane
